

You came

You went

You passed ... the BEC exam (2019)

Congratulations!

We congratulate 36 of our 40 **5 havo BEC** students on passing their **BEC Vantage exam** this year at the B2 level aimed at. (3 results pending; 1 absentee)

One of our students (3%) passed within the C1 level of the CERF (Common European Framework of Reference for language – see picture) with a Grade A, with the highest score possible for Speaking! Well-done, Justin.

Sixteen (44%) passed at B2 level (higher end – grade B) end 18 (50%) passed at the lower end (grade C) of the B2 level – congrats to all here too.

And one (3%) student received a B1 level (though special circumstances were involved here, so well-done too).

Taken altogether, this counts as a 94% success rate for this exam.

It's only fair to say that all these students deserve an extra congratulatory compliment this year because of the challenging circumstances under which they had to prepare themselves for this exam.

As soon as the results of our special needs students are in as well (the three 'pending' mentioned above) we'll update these figures.

And, finally, all the best in your Dutch national exams coming up soon.
